

Education

**University of Reading**  
BSc in Computer Science with Honors, First Class (1:1)

Sep 2020 – Jun 2024  
Reading, Berkshire

**Key Modules**  
Programming & Algorithms: Python and Data Science, Fundamentals of Algorithms, Quality and Testing  
AI & Data: Artificial Intelligence, Text Mining and NLP, Data Integration & Visualisation  
Systems & Applications: Blockchain, VR, System Design, Web Applications

**Final Year Project** - Educational Learning Platform  
Tech: React, Python, MongoDB, REST API, CRUD  
May 2024

- Developed an interactive platform featuring an AI-powered chatbot for personalised study assistance.
- Built secure user blogs with CRUD operations and quizzes, integrating a custom IDE for coding challenges.

Technical Skills

- Languages: Python, Java, JavaScript, SQL
- Web Technologies: HTML5, CSS3, React.js, Node.js
- Databases: MySQL, MongoDB, PostgreSQL
- Tools & Frameworks: Git, Jupyter Notebooks, Linux
- Data Science & ML Libraries: Pandas, NumPy, SciPy, Scikit-learn, PyTorch, TensorFlow
- Data Visualisation: Matplotlib, Seaborn, Tableau, Plotly

Technical Projects

**Personal Dashboard**  
Tech: Electron, JavaScript, Node.js, REST API, CRUD | Completion Date: February 2025  
Developed a desktop application using web technologies using the package Electron. Created a persona dashboard application with features such as Spotify Music, Daily weather, Motivational Quote Generation, Habit Tracker, etc.

**League of Legends Profiler**  
Tech: React, JavaScript, League API | Completion Date: October 2024  
Developed a real-time web application integrating the League API to fetch and display player statistics and match history. Optimised user experience through interactive charts and responsive design, resulting in increased user engagement.

**Data Science Salary Predictor**  
Tech: Python, Pandas, Scikit-learn | Completion Date: January 2024  
Designed and deployed a machine learning model to predict salary ranges for new hires based on experience and education, achieving a 90% accuracy.

Work Experience

**Team Member, Greggs**

Feb 2023 – Dec 2024

- Provide excellent customer service to approximately 300 customers daily
- Maintain store cleanliness and presentation standards
- Help resolve customer queries and handle complaints professionally

**Wedding Event Setup and Audio-Visual Contractor, Showcase Weddings**

Feb 2019 – Sep 2019

- Developed strong skills in warehouse operations, logistics, and on-site problem-solving.
- Supervised event setup teams, delegated tasks efficiently, and ensured timely project completion.

Certifications

**Skyscanner Software Engineering Job Simulation** Feb 2025  
Developed an Android app to display flight itineraries with Backpack.

**Commonwealth Bank Software Engineering Job Simulation** Feb 2025  
Created a responsive web page using HTML/CSS & Gained knowledge in financial cybersecurity and web hosting security.
